

2026-27 Recipient Mare Hire Contract

This contract made on _____ 2026 by and between **Murray Veterinary Services**, hereinafter called **MVS** and (NAME) _____ hereinafter called **Owner**, both of whom are hereinafter called the **Parties**.

MVS is the business of equine embryo transfer and recipient mare leasing services.

Owner desires to enter a contract with MVS for such services

Therefore, the Parties agree as follows:

1. The Owners Donor Mare, named _____ has had an embryo transferred into the Recipient Mare owned by MVS named _____.
2. Such embryos can be shipped to MVS or recovered at MVS. MVS shall evaluate the embryo and if apparently healthy, insert the embryo into the uterus of suitable Recipient mares prepared and owned by MVS.
3. Upon signing of this contract, Owner understands that the Recipient mares has been selected for the donor mare based on reproductive soundness and synchrony with the donor mare's reproductive cycle.
4. This recipient mare hire fee secures such recipient mare for the Owner but also covers the expenses involved in the board, proper care and reproductive management for those mares until they are 45 days in foal with the donor's embryo. These expenses include all fees associated with the purchase and maintenance of these mares prior to the embryo transfer and the care and medications immediately following the embryo transfer. Also included are the initial pregnancy exams conducted on the recipient mare until they are 30 days in foal.
5. The fee is not transferable to another Donor mare and will be good from August 2025 through March 2026. The hire fee for this donor mare is not transferable to another Owner.
6. MVS must have a completed, signed "Embryo breeding and transfer" contract before the donor mare is flushed or embryo is transferred.
7. Recipient Pregnancy and Lease fee for each recipient mare is **three thousand two hundred and twenty two dollars (\$3220.00)**
8. Upon each recipient mare reaching 45 days of gestation with a viable pregnancy, Owner shall pay to MVS \$3066.
9. **MVS shall start charging board and medication fees for the recipient mare after she reaches 45 days of gestation.** At MVS we firmly believe that embryo transfer recipients are safely in foal by 45 days of pregnancy and are ready to go home. We therefore encourage Owners to take the pregnant recipient home at this time although we can make arrangements to board them locally if necessary, charges will be incurred. Owner is responsible for and agrees to pay for any and all veterinary expenses of the recipient mare after 45 days gestation.
10. **Owner shall return each recipient mare in good health within 6 months of the foaling date.** However if Owner shall fail to return said mare, Owner agrees to pay MVS \$2000.

11. It is expected that each recipient mare will deliver a live foal (defined for this purpose as able to stand and nurse within 24 hours after birth). If the recipient mare loses the pregnancy after 45 days of gestation the Owner will receive \$1000 credit towards future embryo transfer services using MVS recipient mares only. The recipient mare must be returned and a letter for the examining veterinarian stating findings at the time of loss must be presented for the credit to be issued. NO credit will be issued if the loss is due to an inheritable genetic defect such as lethal white syndrome. This credit is non transferrable to other veterinary services provided by MVS. The credit is applicable for embryo transfer and recipient mare hire fee only.
12. MVS recommends to Owner that Owner insure the recipient mares and the embryos against all losses and risks of any kind, nature and description. Owner shall indemnify and holds MVS harmless with respect to said losses and risks.
13. All notices required by this contract shall be given as follows: if to MVS, then Murray Veterinary Services, P.O.Box 509, Pinjarra, Western Australia 6208 or emailed to admin@murrayvets.com.au; If to Owner then the address shown at the Owner's signature.
14. Owner understands and agrees that MVS is not responsible for the expense of transporting embryos or containers. Further Owner understands and agrees that MVS is not responsible for registration or blood typing of the resultant foal.
15. MVS reserves the right to refuse or suspend service when the Owners account is past due.
16. It is specifically understood and agreed between the Parties that **prior** to the transporting of the recipient mares from MVS all charges and services rendered in the contract should be paid in full. No recipient mare shall be released without payment in full. Further by filing this contract along with a detailed itemisation of the unpaid charges owed to MVS by Owner, MVS shall have a possessory lien on the recipient mare and the foetus.
17. With regard to the transportation of the recipient mare, all risk of loss shall be borne by Owner and all transportation expenses shall be paid by Owner. Three business days' notice must be provided to MVS by Owner prior to the discharge of recipient mare to allow for processing of mares paperwork. All recipient mares shall be picked up and delivered during regular business opening hours.
18. This contract is the final and complete agreement of the Parties and there are no other terms of the Parties in agreement other than those contained in the document.
19. This contract shall be binding upon the Parties and their respective heirs, personal representatives, successors and assigns.
